

# CLTC

Center for Long-Term  
Cybersecurity

UC Berkeley

## Corporate Membership Program

Having the knowledge and network to address critical cybersecurity challenges is a decisive business advantage.

By joining the Center for Long-Term Cybersecurity Corporate Membership Program, companies gain access to insights and talent that better prepare them for tomorrow's security landscape. Current corporate members ranked many of these benefits as "highly valued" in a recent survey, including:

**Timely access to leading and relevant cybersecurity research**, including opportunities to help define and shape research priorities.

**Curated cybersecurity briefings** on pressing cybersecurity challenges and solutions, both broad and technical.

**Engagement with UC Berkeley's high-caliber graduate students**, who represent a valuable pipeline of skilled cybersecurity talent.

**Access to the people and resources of UC Berkeley**, including experts to participate in company conferences, consult on emerging issues, and host meetings on campus.

CLTC's Corporate Membership Program provides companies with ongoing insights and can support your team across multiple dimensions of cybersecurity, including technical challenges, human-computer interaction, and policy and regulation.

*The Center for Long-Term Cybersecurity (CLTC), housed within UC Berkeley's School of Information, is a premier hub of interdisciplinary cybersecurity research and collaboration. We act as a translator and two-way bridge between cutting-edge academic research and industry and policy needs.*

KAISER PERMANENTE

Membership packages allow companies to select a level of support that matches their specific needs, and can be tailored further in collaboration with CLTC. See summaries of defined membership tiers below and contact CLTC directly for more information.

## BECOME AN ASSOCIATE OF CLTC AND ENJOY THESE BENEFITS:

- Receive regular updates about cybersecurity research from across UC Berkeley
- Attend CLTC's annual Research Exchange with exclusive onsite benefits, including speaking opportunities and facilitated introductions to research teams of your choice
- Attend member-exclusive networking and recruitment events to gain access to top Berkeley faculty and graduate student researchers in computer science, information management, data science, and other emerging fields
- Meet with CLTC leadership for a company-specific introduction to CLTC resources
- Gain access to UC Berkeley's rooms and venues for closed-door meetings and small- to mid-sized events
- Build your brand by having your logo featured on the CLTC website
- Participate in annual conversations to help shape cybersecurity research at Berkeley

## INNOVATE WITH US AS A CLTC PARTNER

Access all the benefits of the CLTC Associates Program, plus

- Curated conference calls three times per year on emerging cybersecurity topics selected by CLTC leadership in consultation with members

Customized packages tailored to partners may also include:

- **Research Packages:** Collaborate with a dedicated UC Berkeley research team on co-designed, cutting-edge cybersecurity questions
- **Education Packages:** Support top-notch Berkeley students and connect with future cybersecurity professionals
- **Engagement Packages:** Work with CLTC's team to organize, convene, and/or facilitate meetings, workshops, and seminars to address your most pressing and challenging cybersecurity questions. Participate in a customized, on-site presentation of our Cybersecurity Futures project, tailored to your organization's interests and needs.

*CLTC Corporate Membership is tax deductible. Associate member dues begin at \$35,000 and Partnership-level membership starts at \$75,000.*
